Beautiful palettes made simple

Whatever it takes to bring your vision to life

We've been delivering modular buildings across Australia since 1999, with more than 3,200 buildings completed to date.

Based in Armidale, NSW, our team shares a commitment to:

- ✔ Meeting agreed completion dates
- ✔ Price certainty — no hidden costs
- ✔ A collaborative process — with the opportunity to visit our factory and inspect your build at any time
- ✔ Exceeding industry standards

Simple moments for lasting memories

External Selections

Choose one of our carefully considered exterior palettes, or work with our design team to create a combination that feels right for your project.

The outside of your building sets the tone for everything that follows.

We've brought together colours, materials and finishes that work beautifully together, making it easier to create an exterior that feels considered from every angle.

Start with one of our six curated palettes or make it your own. From Colorbond® roofing and cladding to windows, doors, decking and balustrades, our design team will guide you through the choices and help bring everything together.

The first impression starts here

Internal Selections

Start with one of our six interior palettes, mix and match your favourites, or create something entirely your own.

This is where your building starts to feel like your space.

Our six interior palettes bring together complementary colours, finishes and materials to give you an easy starting point. Choose a complete look, borrow a few favourites or take things in your own direction.

Then make the practical details work for you too, from doors and hardware to window coverings, wardrobes, ceiling fans and air conditioning.

There are plenty of choices. Our team is here to make choosing them simple.

A space that feels like yours

Commercial Selections

Every commercial project works a little differently. Choose from practical additions designed to make your building work better for your people, your site and the job at hand.

The right details can make a big difference to how a building works day to day.

Our commercial selections give you practical options to tailor your building around the people who will use it. From durable finishes and functional fittings to project-specific accessories, each choice can be considered around your site and operational needs.

Our team will help you work through the options, identify what your project needs and keep the selection process straightforward.

So you get a building that doesn't just look the part. It works the way it should.

Ready for the way you work
